About Namibia Business School

The Namibia Business School (NBS) was established in response to the needs of the Namibian market. In 1999, the Founding Vice-Chancellor of the University of Namibia, Prof. Peter Katjavivi, assisted by the former head of the Economics Department, Prof. Mohammed El Toukhy, joined forces with the FNB Foundation and entered into a collaboration agreement with the Maastricht School of Management in the Netherlands to offer an Executive MBA Programme at UNAM. Since the inception of the programme in 2000, more than 175 students have graduated with diplomas and Master's Degrees in Business Administration (MBA). FNB Foundation, under the leadership of the late Lazarus Ipangelwa, had the vision and commitment to support the programme financially. This commitment from NBS has continued up to this day and has translated into FNB being one of the Founders of NBS.

A number of individuals played a crucial role in overseeing the UNAM/MsM MBA Programme and nurturing the idea of establishing a full-fledged business school. Their tireless efforts made the establishment of NBS bear fruit. These individuals are Prof. Peter H Katjavivi, Prof. M M El Toukhy, Mr D R Norval, Mr A Aochamub and Ms Y M Yon.

Mission

To deliver graduates with knowledge and skills in leadership and management for good governance, entrepreneurship, and social transformation in the African context.

Vision

To be an internationally accredited business school noted for high performance in innovative research, learning and teaching, and entrepreneurship training, delivering leaders for the African context.

Values

Excellence, Integrity, Accountability & Service

Purpose

NBS exists to promote personal and national transformation through quality business and management education.

C. SYLLABI OF QUALIFICATIONS

DIPLOMA IN PROJECT MANAGEMENT

(63DPMN)

INTRODUCTION AND OBJECTIVES

The purpose of this qualification is to produce graduates who can successfully deliver projects within scope, on schedule and within budgets. Graduates are well-grounded in management theory as it applies to projects. Graduates will be equipped with strong foundational skills in project management that allow them to lead projects and project teams. Due to the case-based approach, students cultivate critical thinking skills. The team approach in each project management module, develops graduates who are well-equipped to work with and lead diverse teams. Projects and project management is intertwined with Namibia's development agenda and international pursuits such as the Sustainable Development Goals (SDGs). For example, Namibia's Fifth National Development Plan's (NDP5) goals are organised and executed as projects. Harambee Prosperity Plan II (HPP2) is project driven. Each of the five HPP2 pillars is broken down into goals that are supported by projects. Vision 2030 is project focused. In fact, on page 88 of Vision 2030, it specifically mentions a limiting factor to the Vision: "shortage of skills in some critical areas of planning and project execution in most of the sectors...These obstacles must be overcome if Vision 2030 is to be realised." The SDGs are pursued via projects. This qualification educates and grooms project professionals who are capable project team members and leaders to lead these vital national and international development goals. Additionally, the mission of the University of Namibia is "to contribute to the achievement of national and international development goals through the pursuit of translational research, quality training and innovation." Project management skills are vital to reach national and international development goals. Quality training for the populace in project management is the first step to build this competency which the Diploma in Project Management will do. Lastly, the programme embraces the Fourth Industrial Revolution by equipping students to utilize technology and data for project execution and delivery.

CRITERIA FOR ADMISSION

The Diploma in Project Management seeks to recruit suitably qualified students who can benefit from, contribute to, and complete the programme. To be considered for admission to this programme, a prospective student must:

OBJECTIVE OF THE PROGRAM

The purpose of this qualification is to provide the business managers with an understanding of contemporary challenges of management by exploring new approaches and practices and their integration into the broader organisational strategy. It seeks to increase their personal competencies as they set divisional/functional objectives in pursuit of organisational strategy. This will broaden their insight of organisational dynamics as well as their capacity to manage themselves and others in pursuit of set organisational objectives. This is in line with the fifth National Development Plan (NDP 5) and Vision 2030, as executive education provides managers, professionals and emerging leaders across business, government and industry with contemporary business management skills. The goals of the Vision 2030 and NDP5 are organised and executed as programmes that require collaborative efforts from both private and public institutions. This qualification equips operations managers to execute the programmes and projects effectively and efficiently and strengthen business operations management knowledge, skills and competencies, which can be used to build strong organisations and, in turn, a strong nation. This is also in line with the strategic objective of the University to "cultivate standards of excellence in teaching, research, and all the prescribed functions of UNAM, through encouraging constructive criticism, constant self-improvement, self-evaluation, and peer assessment".

INTRODUCTION AND OBJECTIVES

The purpose of this qualification is to equip students with leadership skills and capability to lead in a complex organisation, manage stakeholder relationships, develop and implement strategies, and achieve organisational goals and objectives. The programme seeks to provide agile skills to lead individuals, teams and organizations towards effective and efficient strategies implementation. This is in line with the fifth National Development Plan (NDP 5) and Vision 2030, as executive education provides managers, professionals and emerging leaders across business, government and industry with contemporary leadership skills in emerging business environment. According to the NDP 5, Namibia seeks to build capable and healthy human resources, and the training of institutional leaders is critical in achieving this goal. Vision 2030 and NDP 5 are programmes-focused and would benefit from increased executives' leadership skills and competency in the country. Therefore, this programme is aligned with Namibia's national developmental agenda. This is also in line with national goal and socio-economic development as executive education offers new knowledge to enhance skills and gives managers, professionals and emerging leaders across business, government and industry the opportunity to step back and gain new perspectives. This is also in line with the strategic objective of the University to "cultivate standards of excellence in teaching, research, and all the prescribed functions of UNAM, through encouraging constructive criticism, constant self-improvement, self-evaluation, and peer assessment".

INTRODUCTION AND OBJECTIVES

The purpose of this qualification is to enhance management and leadership capacity of higher education leaders. Participants will be provided with extensive knowledge and skills to successfully manage the complexities of higher education. The programme draws on the latest evidence-based research in higher education and will be taught by experts, giving participants access to global expertise and perspectives. The programme enables leaders with an education background to develop integrated functional and reflective competences in educational management by examining issues such as the strategic management, the management process, educational governance, financial management, marketing and human resource management in higher education. Thus, the focus of this diploma is to improve the practice of management and leadership in the higher education sector. The new programme received support from national and international stakeholders namely University of the Western Cape, University of the Free State, Midlands State University, National University of Science and Technology, International University of Management, Triumphant College, Chinhoyi University of Technology. The stakeholders noted that the programme is directed towards leaders who hold or are aspiring to hold management responsibilities within educational institutions by providing concepts, insights and practical skills for leading and managing higher education organisations successfully. Thus, the programme, offers expert perspectives on leadership and management principles towards being a transformative leader to meet the needs of the changing educational environment with limited resources. The programme meets relevant society and industry needs, and achievement of national development goals such as Vision 2030, as well as international imperatives such as Sustainable Development Goals (SDGs), 4th/5th IR. As it covers higher education business administration imperatives, the qualification is based at Namibia Business School, is a good fit in the transformation of the Faculty of Commerce, Management and Law. The purpose of the qualification fits into the University of Namibia (UNAM) mission that is to provide quality higher education through teaching, research and advisory services to our customers with the view to produce productive and competitive human resources capable of driving public and private institutions towards a knowledge-based economy, economic growth and improved quality of life. The programme equips participants with skills to examine issues facing higher education leaders and managers and administrators such as finance, income generation, marketing, working with people, technologies and stakeholders, managing change, influencing culture, and problem-solving skills. This programme is designed for academic leaders and senior administrative or professional managers in higher education institutions. The programme will be available to domestic and international participants such as: Head of Institution; Head of Faculty; Head of School; Head of Department; Academic Director; Administrative Director; Faculty Manager and any other administration and management positions in public and private institutions in the education sector.

INTRODUCTION AND OBJECTIVES OF THE PROGRAMME

The purpose of this re-curriculated programme is to develop graduates that are productive, competitive, and entrepreneurial and capable of driving new start-ups, private and public sector organisations towards a knowledge-based economy, economic growth, job creation and improved quality of life. The MBA seeks to develop skills that will enable the graduates to contribute to society and the economy in terms of responsiveness to society and industry needs. These skills are imperative for achieving National Development goals as highlighted in the Vision 2030 document and several of the 17 Sustainable Development Goals and the 4th and 5th Industrial Revolution. This is directly aligned to the mission of the University of Namibia "to contribute to the achievement of national and international development goals through the pursuit of translational research, quality training and innovation". Furthermore, the re-curriculation of this programme is aligned to the Namibia Business School's mission "to deliver graduates with enhanced knowledge and skills in leadership and management for good governance, entrepreneurship and social transformation in the African context".

CRITERIA FOR ADMISSION

The Masters in Business Administration seeks to recruit suitably qualified students who can benefit from contributing to and completing the programme. To be considered for admission to this programme, a prospective student must:

INTRODUCTION AND OBJECTIVES OF THE PROGRAMME

The purpose of this re-curriculated programme is to develop graduates that are productive, competitive, and entrepreneurial and capable of driving new start-ups, private and public sector organisations towards a knowledge-based economy, economic growth, job creation and improved quality of life. The MBA seeks to develop skills that will enable the graduates to contribute to society and the economy in terms of responsiveness to society and industry needs. These skills are imperative for achieving National Development goals as highlighted in the Vision 2030 document and several of the 17 Sustainable Development Goals and the 4th and 5th Industrial Revolution. This is directly aligned to the mission of the University of Namibia "to contribute to the achievement of national and international development goals through the pursuit of translational research, quality training and innovation". Furthermore, the re-curriculation of this programme is aligned to the Namibia Business School's mission "to deliver graduates with enhanced knowledge and skills in leadership and management for good governance, entrepreneurship and social transformation in the African context".

CRITERIA FOR ADMISSION

The Masters in Business Administration seeks to recruit suitably qualified students who can benefit from contributing to and completing the programme. To be considered for admission to this programme, a prospective student must:

Module Description:

The purpose of this module is to prepare students for managerial positions in the pharmaceutical industry. It also provides skill training in build in planning, the operation of management techniques, consultancy, and management-related problems solving.

INTRODUCTION AND OBJECTIVE OF THE PROGRAMMESThe purpose of this qualification is to produce graduates who are well grounded in modern management and leadership styles and have acquired considerable competence in research that together qualify them to be elite entrepreneurs, consultants, productive academics, leaders in the public sector, or in business organisations – including those with global reach. Thus, the programme will produce the kinds of leaders required to ensure that economies in developing countries in particular move in sync with the fourth and fifth industrial revolutions; and drive the better-life-for-all objective of both the Sustainable Development Goals of the United Nations (Agenda 2030) and the Namibia Government's Vision 2030 development strategy. The programme is expected to sharpen students' grasp of best practices in business strategy, entrepreneurship and innovation, competitive advantage, leadership, and governance. Also, the research component in the programme will make it possible for students to contribute to new knowledge, which will promote the innovation their organisations need to keep pace with the fourth and fifth industrial revolutions and establish competitive edge. The programme, therefore, supports UNAM's vision to be a "hub of excellence in higher education, training, research and innovation by 2030".

ADMISSION CRITERIA

The Doctorate in Business Administration programme seeks to recruit suitably qualified students who are capable of successfully completing the programme. In order to be considered for admission to this programme prospective student must:

- c) Hold a Master's degree or an equivalent qualification at NQF Level 9 in a relevant discipline from a recognised institution.
- d) Provide evidence of competency in spoken and written English if the mode of instruction for previous qualifications was not in English.
- e) Provide evidence of a minimum experience of three (3) years in management positions.

ARTICULATION OPTIONS

The DBA is a terminal qualification in Business Administration, but it also prepares students for other qualifications. After completing the DBA, a candidate may pursue an academic career by enrolling into a PhD Management programme or into a Doctor of Management programme.

MODE OF DELIVERY

Full time on a blended basis wherein classes are conducted online via Zoom and Examinations are face-to-face.

ASSESSMENT CRITERIA

The assessment of the coursework has two components: Formative Assessment that will produce a Continuous Assessment mark (50%) and a Summative Assessment that will produce the Summative Assessment mark (50%). Both types of assessment will establish the extent of students' mastery of the learning outcomes. The assessments – individual or group – will include essays, problem-solving exercises, debates, literature reviews, analysis of journal articles, case studies, etc. To qualify for the Summative Assessment, a sub-minimum of 40% in the CA will apply. Each module will have a minimum of three Continuous Assessment tasks. To pass each module, a student should obtain a final mark of at least 50%.

The dissertation will be examined by three experts in the field; and it must pass from all three. After this stage, the dissertation will be examined by a panel at a Viva Voce presentation. The panel must indicate whether the thesis passed or failed. The decision of the Viva Voce panel is final. It is only after the Viva Voce panel had passed the dissertation that it would be deemed to have passed.

REQUIREMENTS FOR QUALIFICATION AWARD

To be re-admitted into the DBA programme, a student should have obtained a minimum of 96 credits at the end of the first year. At the end of the second year, a student should have obtained a minimum of 168 credits for re-admission. Students should complete the programme at least by the end of the fifth year. After the maximum period has been exceeded, the quarterly reports of the supervisor would indicate whether a student should be re-admitted into the programme.

NOTE: THESE MODULES CAN EITHER BE OFFERED IN FIRST OR SECOND SEMESTER ACCORDING TO STRUCTURE OF THE TIMETABLE, STUDENTS ARE URGED TO CONSULT THE TIMETABLE.
